WEENDLL PHILLIPS FOR GRANT

A Radical Speech on the Political Situation —Butler Contrasted with Wade Hampton.

From the Philadelphia Times. Nov. 8.1 Wendell Philips' new fecture—
"The Yard Stick; Who Shall Make
It?"—was listened to by a large audience at the Academy of Music last evening. The applicase that greeted ata delivery had a leaven of disapproval brought out by the warmth of the orator's panegyric on Ben Butler and the vigor of demunciation with which Mr. Phillips spoke of South Carolina's Governor, Wade Hampton The applause followed the manner and the hisses, of which there were not a few, the matter of the speaker's discourse, although when Mr. Phil-lips said "there was only one man who could eafely ride the raging eloments of national discord and bring our country safely away from the danger that impends—General Grant, the applause was vociferous and enthusiastic. The title of the lecture led many to suppose that Mr. Phillips would expound at length the doctrine of soft money, of which he is one of the great aposties in New England, but they were disappointed for although he touched on fluence, he did not follow up that line of argument, but inclined toward the discussion of the relations of capital and labor, designating the representatives of the first as those men who trade in money and as labor repre-sensatives all the rest. The following is the substance of the more striking

points of Mr. Philips remarks:—
If I were in Massachusetts I should whether the Union should saccomb to the opposing forces arrayed against In the famous orations of a great man of the past the closing sentence aiways was:-"Nevertheless, Carth age should be overthrown." So I would have it known that I pass away believing in the existence of a plot On! such beautiful doughnuts and in the South to rule or ruin our Gov- such lovely coffee at C. H. Merrill's.*

ernment. The political campaign of Pennsylvania has been based upon finance. In Massachusetts the issue has been between capital and labor The result in my own State is that General Butler annihilated Democ The people rose in their might and gave to a favorite son of the Coramon wealth 110,000 votes. Had the onmuniga been based on finance Genera: Butler would have been the Gov e-nor. out character, morally a benkrupt, penniless in the street, who holds the hand of the traitor in the White House to betray a million of people of their votes. (Hisses and cheers). I am glad, continued Mr. Phillips, without raising his voice, to see that on this question there is energy of feeling enough to awake even hisses. It is not so in Massachusetts. The Commonwealth of Massachusetta does not exist as it did less than a score of years ago. The New York Tribune said the other day that perhaps General Butler and myself would be willing to retract what we have so often said, that the people can never be wrong, and that the late election in the Commonwealth shows it, to us, Is this the case? Ob, no. The 110,-000 men who stood up against the tremendous influence of money and a purchased press present a change in the affairs of the State-a change indeed, from 1874, when the vote on the same issue was only 5,000. And what a change to us, who had waten e i the swinging pendulum of popular though various objections, till the first shot at Sumter struck high noon and the people sprang together to meet and oppose a common enemy. When our great statesmen, Wilson and Summer, passed away our Common wealth had no other statesman left within its limits except Batler. If there was ever a State bull-dozed in this country in an election it was Massachusetts, and had it not been so General Butler would have been the honored Governor of that great Commonwealth (Hisses and cheers.)

Kearney says he did not receive a dollar from Ben Butler for work done during the campaign, but had labored hard for the cause of the working men out of a sense of duty. He is considerably worn from his labore. He proposes to keep up the agitation and lead on the people to the overthrow of monopolies and corporations and expulsion of Chinese from California. He expects a rousing reception in San Francisco.

THE NEXT DEMOCRATIC PLAT-FORM.

Southern and Western Democrate who have arrived in Washington generally favor a platform for the Democratic party for 1880, having the following as prominent planks: First-The retirement of the national bank notes and the substitution therefor of United States Treasury notes; second-the full remonetization and free coinage of the silver dollar; third-the payment of bonds in strict accordance with the letter of the law under which they were authorized to be issued. It is believed by the soft money and silver money men that these propositions will, beyond doubt score the support of all who are upposed to the continued ascendency of the Republican party. There is but one sentiment among the few Democrats who have arrived here in reference to flat or irredeemable ourrency, and that is one of unqualified opposition to this feature in the platfrom of the National party. The silver men essert that they are for a double standard, but if a single standard is insisted upon, that standard must be the silver dollar. In the opinion of the silver men, silver and United States Treasury notes will furnish better currency for the people than gold, Government paper and bank notes.

NEVADA, TAKE NOTICE.

The San Francisco Argonaut is one

of the best informed and ablest jour-

nals of the city where it is published.

It is elited by Mr. Pixley, who is

oultivated, bold and outspoken. In

tion, he developes the intention of Stanford & Co., and puts their designs in plain English. His well known intimacy with the above named firm, gives his written after ances the weight of authority as coming direct from the railroad magnates. The importance of this matter should not allow the people of this State to rest one moment until they have protected themselves against the tyrannical designs of these powers, or exhausted every means of accomplishing the end It is well known that our merchants have male numerous attempts to deal directly with the producers and manufactures in the East, without having the goods pass that under a fair system of freights avoi ling the California merchant and buying in the Eastern market the It is a squestionably better to invest same as he does but the Central Pacific money in State buildings than to Railroad managers have done all in their power to prevent and direct trade between Nevals and the merchants east of the Missouri river, and have found indic ments against the by a system of discriminations Custom House officers for robbing against us, the most outrageous, have it is therefore advisable to carefully pretty well succeeded. Mr Pixley Secretary Evarts has instructed gives us timely notice that the system our Minister to Germany to inquire is to be continued-that it has a deinto the case of the German citizen sign deeper than the profits made by of Oshkosh who was recently arrest- the discriminations. Here is just ed, with a view to the interference of what he says: "If the system of Cal our Government if the facts of the ifornia railroads, now being carried out by Governor Stanford and his as-Her Majesty's steamship Sirius, sociates, is left to be developed. which left Halifax four days ago, it without needless interference, the Booky is said for Jamaica, is cruising off the Mountains will bound our commerharbor, having been sent to sea to cial jurisdiction on the east." Exactwatch for the Fenian cruiser which ly, which is to say, that if the people it was reported some time ago would of Nevada, Arizona, and in fact the attempt the capture of the steamer whole country west of the Rocky Sarmatian, and carry off the Marquis Mountains will permit, such a system of freights and fares will be perpetually charged over the Central and Southern Pacific Railroads, as will prohibit the purchase of products of the world, by the people who now, or may hereafter inhabit this vast domain, anywhere but in Ban Francisco. The fact that central Nevada is five hundred miles nearer Chicago than San Francisco, and that there is a hundred miles of heavy grades on the western end of the railroad, is to go for nothing. The Nevada merchant is not to be permitted to purchase in Chicago, and save the transportation of his goods over this five hundred mile of road, twice; but to Indian service during the next year build up a great city in another State. \$5,200,000, which is \$500,000 more he is to be forced to buy there, pay out extra profit, and for a thousand rent year. The miner who buys a ham under this and to subsist numbers who are unsystem contributes at least one-fourth, able to help themselves until plantof the price paid to the San Francisco ing season next Spring. merchant to build up that city. Mr. Pixley acknowledges that they have no idea of submitting to a fair competition for the trade of the country west of the Rocky Mountains, but they design to prevent it for the sole benefit of San Francisco. Here is Fullerton, box 413, Portland, Maine. what he says about Scott's competing road: "If Tom Scott could be permitted to accomplish the building of a road to San Diego, to be controlled by him in the interest of Eastern captalists it would strike a most serious blow at San Francisco." Certainly it would, and why? Because, as Mr. Pixley well knows, those dreaded ment. He desires to locate in Kansell the San Francisco merchants in is a silk hat finisher by trade, but the towns outside. But what has since the Centennial, when he was Sau Francisco ever done for this vast one of the guards at the Exhibition, region laying between the Rocky he has had little work of any kind. Missouri rejects what is known as the "Moffatt bell punch." A committee of the House of Delegates has reported against it. As the public would, perhaps, like to be informed on what grounds, we quote from its opinion. The Committee says:

Alcoholic beverages are not frequently used to the detriment of health and fortune; still a large quantity is consumed in a temperate manner, and is as beneficial as any food fit for mankind; and certainly beer has formed of late years an important element in the diet of many Wherefore, in the opinion of the Committee the bell punch tax would not be a voluntary tribune paid by the consumers of luxuries: and the passage of such a law would stimulate espionage, "the meanest and most degraded of all human motives," and would set a premium on dishonesty

There is some talk of giving our Legislature a chance to express its opinion upon this subject.

In the coloring of artificial flowers aniline dyes are now largely used, as, for instance, in dyeing dried and artificial grasses. These broomgreen and similar colors, now so much worn by ladies, are not "fixed," and when worn in bonnets, caps, wreaths, etc., the dye is apt to become transferred to the skin of the head, producing local symptoms, which not only cause much annoyance by dyeing the skin, but may also induce unpleasant irritation, and even, under severe circumstances, inflammation.

WERES POTTER, Wholesale Druggists, Boston, Mass: Cantlemen,—I have for some months fold it aduly that I owe to suffering humanity to write y unstalling the great bureful that I have de-yield from the use of Sanyone's Radical Cura roat Larausen. For more than 20 years I have been d it in the five of Banfond's Radical Curs CATAREA. Formore than 20 years I have been vied with this very troublesome complaint. I o tried all time temelies that i could find, but losses had arrived at that state that I must vyilled or die. Thousaire membraneous system her miss on manned, another to make a discrehad become so inflamed, and the stomach so disordered, that it was a doubtful matter whether I could go to the Pacific coast, or if I did go whether I should live to come backer not. I saw an advertisement of this made had an analysis of noticinas of any kind, yet in sheer desparation I tried this, and was at once ben-fitted by it. The changes of climate, a chronic disease of the liver, and my age—over 70—may prevent my entire restoration, but the benefit I derive from itself up use is to me invaluable, and I am hoping to be completely cured, and at last arrive at a repectable old age.

If this statement of my case can be of any service to those afflicted as I unve been, and couble you to bring this regmedy into more general use, especially of those anicted that I dive been, and thinks yell to thing this removely into many general use, especially a the Pacific coast (where it is much needed), my light in writing this note will be obtained. Lemons for Rheamatism.

A friend desires us to publish to to the world the fact that lemons will cure rheumatism. He tells us that his wife was twisted out of all shape by it; that she suffered a dozen deaths with the complaint. Accidentally hearing that lemons were good, he bought a quantity and gave them to her. She took twelve a day for a while and then gradually decreased the number. After the first day sho began to feel better, and in two or three days was almost well. Now she is as straight and strong as ever, free from pain and full of life-in fact cured. The lemons were put in cold water and put on the stove until the water began so boil. Then they were taken out, the insides aqueezed out and sweetened to taste and eat before meals, breakfast preferred. All afflicted with rhoumstism should try it and test it for them-Bolves.

Said she, tripping our the floor,
Back toward the door
Of the cellar. I have reasw the trap.
Thill I fell into it "kerslap."
And you should have, seen me drap,
Through he halo.

And you should have, seen me drap,
Through he hide.
Fill twenty feet I fell,
But i set up such a yell,
(On my soul.)
That the girl thought I was dying,
And at once set up a crying
That he o'd non who was trying
Not far off
To mend a broken pump,
He turned and with a jump
Chard the she dand timbled plumb
In a traugh.
But weat was this to do
With a story which was new
As the Gospel old and true
With a hop
He came up inquiring the mater,
Whence the screaming and the clatter,
He had half a fond to rap heri

He had half a trained to rap herf

GOOD PLAN.

The most profitable plan for operating in stocks is that of nating capital of versons sums by combining or proling the orders of thousands of enstoners and using them as one money which has been done so successfully by Mesora Lawrence & Co., Bankers, 57 Eachange Plaw, N. Y. City. By this co-operative system such investor is plead on an equal footing with the largest operator and profits are divided promata among the shareholders every 50 days. An investment of \$10 would pay \$51, making 5 per sent on the stock during the month \$25 would return \$150, or 6 per cent. \$100 would make \$1.650, or 10 per cent., and so on according to the market. Prask Lettle *Illustrated Nesspaper, June 28th, 1898; "The Combination method of operating in stocks is the most successful ever adopted." New York Independent Sept. 12th. 1899; "The combination system is founded upon correct business princip es and no person need be without an income while it is kept working by Messra. Lawrence & Co. Brooklyn Josead, April 28th, 1898; "Our editor made a not profit of \$101 25 on an investment of \$20 in one of Messra. Lawrence & Co.'s combinations. The first 'n new circular (copyrighted and sent free) contains two unertring rules for stock operations," and explains everything. All kinds of Stock and Bonits wanted. New Government Lons supplied.
